Situation Overview

- **California State of Emergency Proclamation**

On March 4, 2020, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the State prepare for broader spread of COVID-19.

- **Global Health Advisory**

On August 6, 2020, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on March 19, 2020, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov>.

- **Executive Order N-33-20**

On August 28, 2020, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **FEMA-4482-DR-CA**

On March 22, 2020, President Trump approved Major Declaration FEMA-4482-DR-CA (DR-4482) for the COVID-19 Pandemic.

* Per MHCC: This data comes from two different reports. One is the actual orders sent to warehouse. This report is where SOC Operations pulled a sample of what entities are being sent PPE. SOC Operations also pulled the number of Tribal orders and PPE amounts from this report. From the second report, SOC Operations pulls the total number of orders in SF and subtracts the total from the day before to get the delta. Total number of orders includes cancelled orders, completed orders, and those orders still in the approval process, which can take up to a few days before going to warehouse; therefore, the delta will most likely never match the number of orders provided in the sample.

California Department of Public Health (CDPH)

- MHCC received a total of **18,638 (+294)** resource requests and a total of 35,286 inquiries from public citizens, local health jurisdictions, and healthcare facilities. The number of inquiries listed is a total of the Maximus Call Center and MHCC inquiry counts combined. The public phone number for incoming inquiries is 833-422-4255.
- CDPH continues to conduct the following conference calls to provide updates on COVID-19. Notes for these calls are regularly distributed via CAHAN as they become available:
 - A conference call for local health departments every other Thursday at 1300 hours.
 - A conference call for California healthcare facilities every Tuesday at 2000 hours.
 - A webinar on infection prevention for skilled nursing facilities (SNFs) every Wednesday at 1500 hours.
 - A conference call for skilled nursing facilities every Thursday at noon.
- All Facilities Letter (AFL) 21-20 recommends General Acute Care Hospitals (GACHs) and Acute Psychiatric Hospitals (APHs) offer COVID-19 vaccinations to eligible individuals prior to discharge. The CDPH recognizes that not all GACHs and APHs currently have the ability to take these steps. This AFL provides technical assistance on options and resources to assist GACHs and APHs vaccinate their patients. Third-Party Administrator (TPA) network will need to place a vaccine order request within myCAVax system. Hospitals do not need to complete the vaccine capacity form in myCAVax. This AFL was released through the California Health Alert Network (CAHAN) on June 10, 2021 and revised on June 11, 2021.

Guidance

- The Centers for Disease Control and Prevention (CDC) is issuing a health advisory to notify clinicians and caregivers about increased interseasonal respiratory syncytial virus (RSV) activity across parts of the Southern United States. Due to this increased activity, CDC encourages broader testing for RSV among patients presenting with acute respiratory illness who test negative for SARS-CoV-2, the virus that causes COVID-19. RSV can be associated with severe disease in young children and older adults. This health advisory also serves as a reminder to healthcare personnel, childcare providers, and staff of long-term care facilities to avoid reporting to work while acutely ill – even if they test negative for SARS-CoV-2. This advisory was shared through CAHAN on June 10, 2021.

Emergency Medical Services Authority (EMSA)

- EMSA is assisting with the closure of the State Alternate Care Sites (ACS) located in Sacramento, Imperial, and SD. The current plan is to complete the closures by the end of June 2021.
- EMSA continues to provide support to the Homebound Vaccine Ambulance Strike Team Program (VAST).
- EMSA is providing medical first aid, screenings, and vaccinations to support the border communities at the following locations:
 - Indio Community Resource and Testing Center, Riverside County
 - Barbara Worth Non-Congregate Shelter, Imperial County
 - Kearny Mesa Resource and Testing Center, SD County
 - Four Points Resource and Testing Center, SD County
- EMSA is working with the regions and counties to recover deployed biomedical equipment no longer in use throughout California.
- EMSA continues to verify medical licenses and process out-of-state medical personnel as requested by hospitals and contract agencies to assist California's COVID response.
